Experience :

Sr. Front-end Engineer [Team Lead] (Saufik Solutions) Islamabad.
Oct 2017 – Present.

I started my journey in **saufik** from Sep 2017. Curreuntly I am working as a senior Front-end Developer and designation is Team Lead and Project Manager. **My responsibilties are**:

- Developing and maintaining the user interface (UI) using **HTML**, **CSS**, **JavaScript** and **angular**
- Ensuring that the UI is visually **appealing**, **responsive**, and **easy to navigate**, with a focus on user experience.
- Collaborating with **designers** and **back-end developers** to ensure that the UI is aligned with requirements.
- Optimizing the UI for **performance**, **speed**, and **compatibility** across multiple devices and browsers.
- Troubleshooting and debugging issues that arise during development, including identifying and fixing bugs.
- Participating in **code reviews** and t**esting processes** to ensure the quality and reliability of the UI.
- Communicating effectively with **team members**, **and clients** to ensure that project goals and timelines are met.

Overall, focused on creating responsive and user-friendly experience for website or application, while ensuring that the UI is optimized for performance compatibility
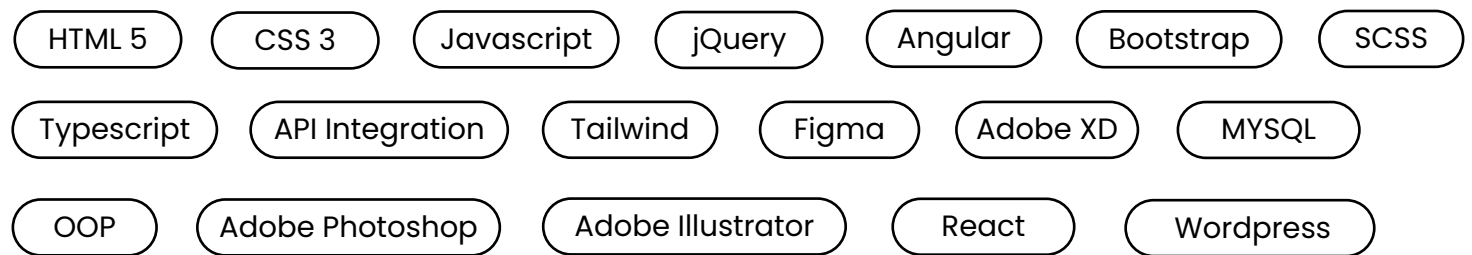

UI/UX designer (Masia Solutions) Rawalpindi .
Jan2017 – Sep2017.

I worked with masia Institute as UI/UX designer for 7 months. From Jan 2017 to Aug 2017.

My responsibilties are:

Understand the needs, **goals**, and **behaviors** of the target audience to create designs that are usable.

Create wireframes, mockups, and prototypes for user testing using **Figma** and **Adobe XD**.

work closely with **developers** to ensure that designs are technically feasible and can be implemented.

Create design systems that include style guides, **color palettes**, **typography**, and other design elements.

Test designs with real users and iterate based on feedback to improve the user experience.
